Subject: JC1 - (N40XR) (L40.2028) - Status Notification Report - Trend Status: NORMAL
Date: 09 December 2023 09:54:28

Dear Dave Taylor

Please review the latest engine trend status and any current comments shown, for **N40XR**, following the receipt of engine performance data:

Code	Operator	Registration	Serial	Engine Serial	Engine Position	Data Source	Trends	Last Trend Date*	Status*	
JC1	PALACE INTERNATIONAL LTD.	N40XR	L40.2028	116602	1	Electronic / Manual	2293	2023-11-30 / 2023-12-08		Normal
JC1	PALACE INTERNATIONAL LTD.	N40XR	L40.2028	116603	2	Electronic / Manual	2134	2023-11-30 / 2023-12-08		Normal

* Last trend date and status is based on the last flight date held by Jet-Care. Noting, data may have been received out of sequence and could be prior to the date shown here.

Notes:

1. This report is released within 24 hours of data receipt to confirm data has been processed, evaluated, and to confirm the current engine trend status based on the last trend date shown.
2. Some file download types may not identify actual flight dates, in those cases the date of the download file is shown.
3. Full report details are available via your online resource - [webECHO™](#), including reports, trend graphs, comments and other information (e.g. download file logs, faults, exceedances, etc. where applicable to your supplied data type).
4. Trend Status Warnings Advisory And Alert Reports will be issued separately if the status is changed to a Warning level.
5. **Important:** It is not Jet-Care's responsibility to advise the aircraft operator regarding any primary engine faults, including non-dispatchable faults and exceedances, that require immediate or scheduled action.

Please contact us if you need further information or support regarding this report.

Best regards,

Released on behalf of the Operations Manager
