C. ESBERARD

APPENDIX 1

PROCESS : ICP SPECTROMETRY OF OILS

Performed in accordance with the following documents:

- ASTM D 5185

With the following resources:

None

This Qualification is based on the following results:

- OIQL n° 2006-3181 Results of the round robin SPECTRO-OIL AG/Eurocopter
- OIQL n° 2006-6058 Spectrometry analysis Qualification Program
- OIQL n° 2006-6222 Spectro-Oil AG Approval
- ETLN n° 2017-1012 Monitoring Audit

The Qualification is subject to the following specific conditions:

For AH customers, the results must be compared to the AH defined limits

Restrictions:

None

Maintain of the qualification

B The qualification of the laboratory will be maintained if the cross-test results are satisfactory. They will take place during the third year after qualification or renewal (**date of last renewal on May 24, 2017**). The Qualified Laboratory will have to ask AH to perform a cross test to keep its qualification. Otherwise, AH will perform a new specific audit (by mail or directly on site ...).

This qualification could be suspended or cancelled at any time in case of decrease in quality. All modifications initiated by supplier must be submitted to AIRBUS Helicopters for approval. In case of AIRBUS Helicopters documentation revision, modifications have to be implemented or request for deviation have to be submitted to AIRBUS Helicopters for approval.
