

## NEWS RELEASE

ODIHAM, Hampshire, UK – 25<sup>th</sup> April 2022

### **Spectro | Jet-Care bring condition monitoring expertise via sample analysis to the Superyacht Village at Palma International Boat Show 2022**

Spectro | Jet-Care, the leading independent laboratory providing sample analysis services to the global superyacht industry, will be exhibiting in the Superyacht Village at the Palma International Boat Show later this week.

Joining the exhibition line up for the first time enables Spectro | Jet-Care to bring its 46 years' experience of providing condition monitoring via Laboratory Sample Analysis to the marine industry at the Palma Superyacht Show.

“Superyachts are specialist vessels often built and operated at the cutting edge of both design and engineering excellence - with over 1300 Superyacht and Megayacht customers and with 46 years' experience we have been on the same technical journey, giving us unique unrivalled experience in this niche field” said Larry Rumbol, Marine Business Development Manager, Spectro | Jet-Care.

The Spectro | Jet-Care fluid analysis service is an important tool for condition monitoring and allows clients to obtain critical information on the health of their engines, propulsion units, hydraulic systems, fire protection systems and other vital equipment via a regime of sample analysis and trending.

The Company's three state-of-the-art laboratories, based in the UK, USA and Switzerland, offer a comprehensive range of services – Oil, Hydraulic Fluid, Fuel, Grease, Fire Water Mist and Debris & Filter Analysis – all developed to identify operational issues at the earliest possible stage.

In addition, all three laboratories maintain the same exacting high standards and are supported by the industry recognised accreditation, ISO/IEC 17025:2017, the highest testing and calibration laboratory standard. This is further augmented by American Bureau of Shipping (ABS) full accreditation.

Larry Rumbol and Prena Limbu will be on hand at booth RR11, in the Repair & Refit Area of the Superyacht Show and will be pleased to meet you.
